Model #442

RURAL MAILBOX SUPPORT SYSTEM

Original SwingClear design featuring a 40" swinging boom arm, ideal for rural roads and highways. Automatic self-righting design, swings clear if impacted and returns to center. US made Galvanized Steel construction with durable powder coat finish resists the harshest of elements. Quick and easy do-it-yourself installation with minimal tools. Base post installs easily without the need for digging or concrete. When installation is in a deep ditch 8+ inches lower than road surface, you will also need an Upright Extension (# 025). For base pipe location, measure 50" from where you want the front of your mailbox. Adjustable height meets mailbox carrier requirements. Compatible with most mailbox sizes and shapes.

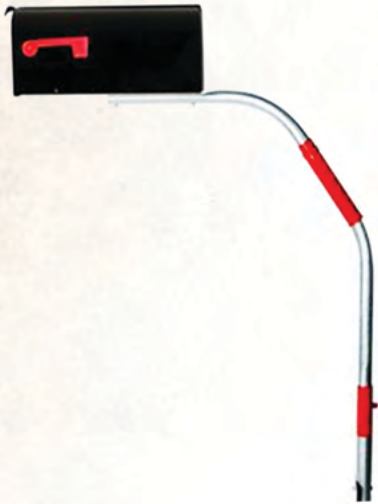

Note: 10" base above ground and 40" from upright post

Depth 42" | Height 48" | Width 1.75"

UPC 00195893069675 | Mailbox Not Included

Model #440

SUBURBAN MAILBOX SUPPORT SYSTEM

Suburban Mailbox post featuring a 30" swing boom arm is ideal for in-town and residential streets. Automatic self-righting design, swings clear if impacted and returns to center. US made Galvanized Steel construction with durable powder coat finish resists the harshest of elements. Quick and easy do-it-yourself installation with minimal tools. Base post installs easily without the need for digging or concrete. Adjustable height meets mailbox carrier requirements. Compatible with most mailbox sizes and shapes. Screws included.

Depth 32" | Height 48" | Width 1.75"

UPC 00195893825776 | Mailbox Not Included

Model #444
